

“The HORSE” at the American Museum of Natural History

If you can get to New York before January 2009, you MUST visit the coolest exhibit titled “the Horse”. This is a very wide-ranging exhibit which explores and celebrates the extraordinary relationship between man and horse. If your travel plans don’t include a trip north – visit the website at www.amnh.org/exhibitions/horse for an almost as good as being there internet experience. You can see videos, take a quiz, make your own ”horsey” stationery and generally broaden your knowledge of this most wonderful creature that we all love.
