

OPERATION GELDING

DR. SALLY BANNER, DR. CANAAN WHITFIELD, AND DR. JOHN MALARK GO TO WORK.

SCHC, L.E.A.R.N., Edisto Equine Clinic Partner Up...

South Carolina Horsemen's Council, LEARN, and Edisto Equine Clinic formed a partnership to offer a low cost gelding clinic on April 16, 2011, at the clinic on 7796 White Point Road, Younges Island, SC. Twelve stallions were gelded through this partnership. Many thanks to LEARN and Edisto.

Operation Gelding was originally initiated by the Unwanted Horse Coalition and the SCHC partnered with them and the organization applying for the grant to make funds go further. When the UHC funds became temporarily suspended at the beginning of the year, the SCHC continued the

program with its funds. To date 33 stallions have been gelded through this program. The UHC planted the seed and SCHC has made it grow. This initiative addresses the unwanted horse and overbreeding issue as well as offering some economic relief to SC horsemen. SCHC making a difference.

SWEET DREAMS

BOTTOMS UP!

STEADY AS WE GO, MATE!
